This property set in over 5000mtrs of pristine gardens it is truly a paradise in the countryside. With many comfortable seating areas around the extensive and well maintained grounds. The whole area is designated to properties with similar sized land, this means that your neighbors are in every direction some distance away, giving maximum privacy. The property has very good German specification windows and these qualities are reflected throughout the whole villa. Very large bedrooms and a guest apartment with its own electric gated entrance are just some of the other great features. Lots of nice dry stone walls contrasted by the beautiful greenery of exotic trees. A must see if you want privacy and comfortable surroundings at a very good price.
