We present a new and exclusive promotion of detached villas in Finestrat, which offers a unique opportunity to acquire a luxury home with stunning views of the Benidorm skyline. Located in a privileged location, this development combines elegance, comfort and an enviable location. Each villa is developed on two floors. On the main floor, there is a bright living room, the kitchen, equipped with top quality appliances, stands out for its modern design and functionality. The property has three bedrooms in addition, three full bathrooms and a toilet are available. A distinctive attraction of these villas is the presence of a basement, offering additional space that can be adapted according to your personal needs and preferences. Each home features an impressive infinitystyle pool, which blends harmoniously with the surrounding landscape. Next to the pool, a careful garden design adds beauty and serenity to the surroundings. The installation of solar panels allows an efficient use of energy. On the other hand, the houses are equipped with underfloor heating and preinstallation of A / C. In order to ensure accessibility and comfort for all residents, the development also offers the option of installing an elevator.
